RESEARCH SHOWS

Library programs staffed by certified librarians are vital in developing students' critical thinking skills and dispositions.

DELAWARE (TODD, 2005-6)

Data collected from this study shows that 98.2% of students were helped by the school library in their learning process, when the school libraries had state certified, full-time school librarians, flexible schedules, active instructional programs for information literacy development, and a networked information technology infrastructure.

"The librarians organize special events, they come into our classrooms and teach us, and they create opportunities for us to learn."

JaSonyia B.

*"Positive vibe here in the library, no negativity. That's why so many people come here during lunch because they can be in a safe and happy place."

Ann M. Martin Learning for Life School Librarians' Scholarship

HISTORY & PURPOSE

The Ann M. Martin Learning for Life School Librarians' Scholarship, presented by the Henrico County Public School Librarians and the Henrico Education Foundation, is made possible by the HCPS librarians' donation of funds as recipients of AASL's 2011 National School Library Program of the Year. It is named in honor of Ann M. Martin, Educational Specialist for Library Services from 2004 - 2013, who was integral in achieving this goal.

- The scholarship provides financial support to Henrico County graduates planning to pursue further study or training beyond high school.
- The scholarship is worth \$1000 and recognizes students who have demonstrated a commitment to the promotion of libraries and literacy.
- Scholarship funds can be used for tuition, books, or other school related costs and will be paid directly to the recipient's educational institution of choice.

"When faced with a large essay or assignment, the librarians came to our classes and helped us prepare and create research questions of the right scope, making sure we were confident in starting, and reminding us of important deadlines."

Madeline D.
